PREFACE

Among South Carolina's 28 teacher education institutions are some of the oldest, newest, largest, and smallest in the nation. Rich in their variety, all share a commitment to the training of teachers and to the profession of education.

As a member of the National Association of State Directors of Teacher Education and Certification (NASDTEC), the State Department of Education applies NASDTEC standards suitably modified or extended by the State Board of Education to teacher education programs leading to state certification. In addition to graduation from an approved program, candidates for certification must pass the appropriate test in their particular area of study as well as in pedagogical skills.

As required by state policy, this list is distributed annually "to all South Carolina colleges, universities, school superintendents, and shall be available to any other appropriate institution or agency."

RECIPROCITY

Interstate Agreement on Qualification

Of Educational Personnel

The National Association of State Directors of Teacher Education and Certification (NASDTEC) is comprised of states which subscribe to a common set of standards for the evaluation and approval of teacher education programs in colleges and universities. In addition, more than thirty states have also passed legislation and signed contracts providing for participation in an interstate agreement on Qualification of Educational Personnel. The members of this compact have agreed to take advantage of the experience and preparation of professional educators wherever gained and through programs of cooperation and reciprocal acceptance provide for the free flow of teachers and other educational personnel among the party states.

PROGRAM LEVELS

In the listings of approved programs for individual institutions in this publication, three program levels are indicated under the final column entitled "Program Level." The abbreviations for those three levels are used to designate the following:

BU: Basic Undergraduate

BG: Basic Graduate

A: Advanced

M.A.T. PROGRAMS

For purposes of teacher certification, the M.A.T. program (Master of Arts in Teaching) is regarded as a basic program designed for initial certification. In keeping with this policy in South Carolina, admission to such programs is for those persons seeking initial certification only. For those already certified, graduate programs leading to such degrees as the M.Ed., M.A., or M.S. would be appropriate.

MINIMUM REQUIRED SCORES ON APPROPRIATE TEACHING AREA EXAMINATIONS

In addition to the completion of specified scholastic requirements, an individual applying for teacher certification must present the minimum required score on the appropriate teaching area examination as established by the South Carolina State Board of Education.

A. National Teacher Examinations (NTE)

A score on the Teaching Area Examination of the National Teacher Examinations is required for certification in those areas for which an appropriate teaching area examination exists and has been validated for use in South Carolina. Minimum required scores on the appropriate Teaching Area Examinations are as follows:
